

Make Your Sukkot Count

Gematria is a system in which Hebrew letters correspond to numbers. Calculate which word from the box at the bottom of the page corresponds to each number and write the word next to its number. Then write your name and figure out what its numerical value is.

$$951 = (5+200+6+400) + (200+80+60) \quad \text{סֵפֶר תּוֹרָה} = 951$$

$$\underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} = 68$$

$$\underline{\quad} \underline{\quad} \underline{\quad} = 85$$

$$\underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} = 169$$

$$\underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} = 428$$

$$\underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} = 432$$

$$\underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} = 458$$

$$\underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} = 486$$

$$\underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} = 535$$

$$\underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} = 591$$

$$\underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} = 610$$

$$\underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} = 1170$$

$$\underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} \underline{\quad} = 1358$$

To create other numbers, simply combine letters. For example:

11 = יא

25 = כה

183 = קפג

1478 = תתרתעח

Note: 15 and 16 are written טו and טז because yud-hei written together form one of God's names and yud-vov together look too much like part of God's four-letter name.

When reading Hebrew letters, the following groupings have the same value:

נ \ ן

מ \ ם

כ \ ך \ ך \ ך

ב \ ם

ש \ ך

צ \ ץ

פ \ ף \ ף \ ף

When writing gematria, use only the characters in the chart (no final letters or dots).
